| <b>TECHNICAL ABSTRACT</b><br><br>"Exploring Mauritius: A Comprehensive Google Street View and Virtual Tour Experience" is an ambitious project that aims to showcase the beauty and heritage of Mauritius to the world. This initiative comprises two key components:<br><br><ol style="list-style-type: none"><li>1. Google Street View of Towns and Coastal Areas: Cutting-edge technology will capture high-resolution 360-degree images of all towns and coastal regions in Mauritius, allowing users to explore the island's vibrant streets and breathtaking coastlines from anywhere.</li><li>2. Virtual Tours of Natural Heritage Sites: In-depth virtual tours will be created for Mauritius's ten most significant natural heritage sites, providing users with immersive experiences enriched with historical, ecological, and cultural insights.</li></ol><br>This project seeks to promote tourism, education, and conservation efforts in Mauritius. It will boost tourism by offering a captivating preview of the island, serve as an educational resource for students and researchers, contribute to the preservation of natural heritage, and have a positive economic impact. "Exploring Mauritius" is set to be completed within 18 months, with a dedicated team ensuring high-quality content and user accessibility. |                                                               |
